

ExpertusONE ONE-Profile Card

A one-stop digital learning solution to showcase and verify employee skills and credentials

The ExpertusONE ONE-Profile Card is a QR code-based solution that simplifies the process of verifying employee training accomplishments.

Scanning the QR code on the ONE-Profile card unveils the employee's key profile attributes and learning credentials, such as acquired certifications and skills, earned continuing education credits, and accumulated points or badges.

This information can be swiftly shared with potential employers, clients, or other stakeholders, offering assurance of the employee's qualifications for the job.

Key Features

Essential user information

The ONE-Profile Card displays the user's photo, contact information, and relevant attributes.

Unique QR code

The card has a scannable code linking to the user's ONE-Profile Training Summary or ONE-Profile CEU Summary.

Easy sharing options

Users can share their cards and certifications on the LMS platform, LinkedIn, or download them as PDFs.

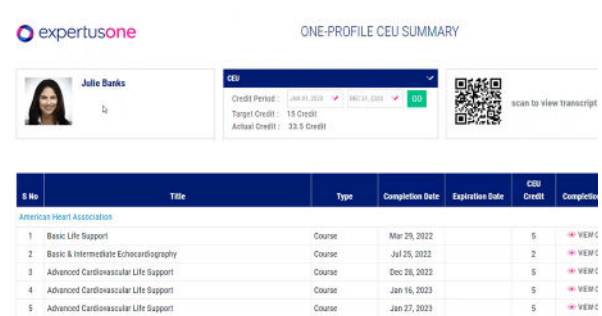

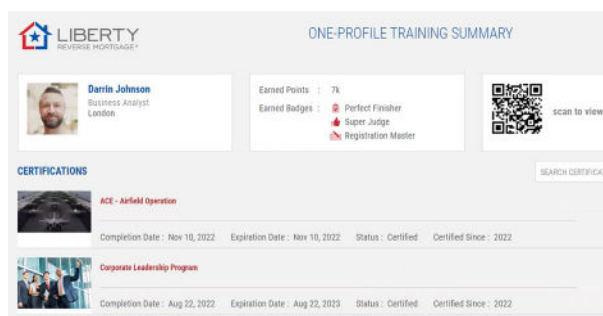

Personalization

Companies can customize the design of their ONE-Profile Card with their branding.

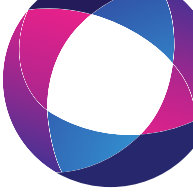

Industry-specific training summaries

The training summary varies depending on the specific training requirements of an industry.
